Faculty Senate 1/2007 Nov.2, 2007

The2nd Long-Range Plan in Higher Education (HE) 2008-2022

Future impacting the world, the country, and HE Direction and policies

Part I

- 1. Change in Demography
- 2. Energy and Environment
- **3. Employment and Future Labor Force**
- 4. Decentralisation
- **5. Elimination of Conflicts and Violence**
- 6. Youth, Students, and Future Graduates.
- 7. Sufficiency Economy

- 1. Link between HE and Other Levels of Educ.
- 2. Problem Solving of Present HE
- 3. Governance and Management
- 4. Roles of a university in Capacity Development for Competitiveness
 5. Finance in HE

Part II

6. Personnel Development in HE 7. Networking 8. Development of HE in the Three **Provinces 9. Structure of Basic Knowledge at HE** Level

1. Change in Demography • Population increases slowly • Decreasing number in children and youth • Elderly people is increasing • Age of participation (18-22) ...decreasing

2. Energy & Environment
Natural resources...depleting
Environment ..destroyed
Global warming

3. Employment & Labor Force

Four factors that have impacts towards labor force

Labor force--knowledge & skills

4. Decentralisation of Power

Local administration
Specialisation in setting up system
Knowledge management and training
Raising capability of personnel

5. Elimination of Conflicts & Violence
War
Terrorism
Conflict

6. Student & Youth of Today Graduates of Tomorrow

- Frost industrial / post-modern
- Way of living, learning
- Families
- Risk
- Mismatch between studies & skills needed
- Socialisation
- Base-live competencies

7. Sufficiency Economy

- 1. Link between HE and Other Levels of Educ.
 - Lack of Quality in academic areas and other human dimensions
 Result of O-NET in 2007
 Vocational schools
 Priority ... to degree

2. Problems in HE • Expansion in HE • Five categories of HEIs: - Traditional State U - Private HEIs 163 inst. - Rajabhat U. - Community Collges - HEIs affiliated to other Ministries • Low quality students • Unemployment (To be cont'd)

 3. Governance and Management
 O Mechanisms ... giving good directions
 O University Council

4. The Roles of a University in Capability **Development for Competitiveness** • Through Human resources development • Adjust structure ... to bring about linkage between policies and different plannings • Create excellence in research • Link between private sectors and HE (To be cont'd)

5. Finance in HE

Investment through budgeting system does not reflect quality in education
Students ... increasing
Finding from other sources

6. Personnel Development

To find funding resources
To increase capabilities of the faculty
Experience should be disseminated

7. HE Network

University divide among Thai University
Low productivity of labor force
Network in HE ... to avoid duplication in Many aspects

8. Development of HE in the Three Provinces

Race, religion, languages Curriculum

9. Structure of Basic Education • 4 areas (i) Curriculum structure to respond to the market needs & society (ii) Societal information, learning society, and learning resources (iii) Lifelong learning (iv) Environment that facilitates learning and human relatedness
